

INDEX FOR TECHNICAL NEWS BULLETIN, 1930

A		Page		Page
Aberrations of astronomical objectives	32	Cast iron for enameling purposes	34	
Accelerated weathering test of paints	12	Cement, Portland, clinkering of, effect	46	
Accidents in the home, prevention of	49	of boric acid on	90	
Acoustics, architectural	54	X-ray study of	14, 35, 110	
Addition agents, value of, in copper	88	Cement reference laboratory	101, 113, 122	
electrotyping solutions	72	Certification of brick	101, 121	
Aerodynamic characteristics of circular-	61,	Certification of lumber	101, 113, 122	
arc airfoils at high speeds	68, 82, 95, 107, 117	Chimneys, wind pressure on	77	
Aeronautic radio research, progress in	43	Chinaware, cutlery marking of	1	
Aircraft engine ignition shielding	22	City planning, growth in	17	
Aircraft radiobeacon, visual indicator	23	Clay, abrasive action of, on dies	69	
for	11	Clay bodies, burned, change in volume	1, 34, 78	
Aircraft, welded joints in tubular mem-	72	during use	35	
bers of	31, 117	Clays, fire, mineralogical changes in	25	
Airfoils, aerodynamic characteristics of,	31	study of	35	
at high speeds	24	Clays for making heavy ware	102	
Airplane antennas	91	Clays from Ohio, properties of	15	
Airplane direction finders	55	Clays, heavy, from Ohio	46	
Airways, applying the visual double-	108	Cleaning materials, circular on	100	
modulation type radio range to	45	Coatings for pipe lines, cooperative	35	
the	111	tests of	72	
Alabama, bureau opens two new	51, 117	Column bases, welded	102	
branches in	54	Commercial standard for mirrors	56	
Alumina, fused, thermal expansion of	15	Concrete, elastic properties of	59	
American Dental Association, coopera-	32	hollow tile and, beams and slabs of	17,	
tion with	71	Consistometer, new, for measuring prop-	27, 38, 50, 63, 72, 77, 92, 104, 113	
American Physical Society, one hun-	55	erties of greases and oils at low		
dred and sixty-third meeting of	108	temperatures	87	
Annual report of Bureau of Standards,	45	Construction activities during 1929	80, 88	
1930	111	27, 38, 50, 63, 72, 77, 92, 104, 113	76	
Antennae, airplane	51, 117	Copper electrotyping	3	
Architectural acoustics	54	Copper electrotyping solutions value of	80, 88	
Arlington Memorial Bridge, tests of	15	addition agents in	34	
Astronomical objectives, aberrations of	32	Copper roofing, seams for	76	
Automatic balance	71	Cornstalks, new material (maizolith)	72	
Automobile license tags, enamels v.	33	from	3	
enamels and varnish for	33	Crystalline rubber	85	
Aviation, list of bureau's publications	92	Currency paper, manufacture of	3	
on		Cutlery marking of chinaware	1	
		Cutting tests with cemented tungsten-		
		carbide lathe tools		
B		D		
Bags, paper, as shipping containers	48	Davis-Gibson mean sunlight filters	32	
Balance, an automatic	71	Density of insulating materials	110	
Bauxite, thermal expansion of	55	Dental research, review of progress in	108	
Beams and slabs of hollow tile and	56	"Devimeter" applied to radio reed in-		
concrete	56	dicator	95	
Bearing bronzes, effect of zinc, phos-	69	Dewey decimal classification of radio	92	
phorus, nickel, and antimony on	13	subjects	2	
Bismuth, new uses for	119	Diaphragms, effect of temperature	55	
Bituminous-saturated felts, extraction	46	changes on	69	
of	113, 121	Diaspore, thermal expansion of	31	
Boric acid, effect of, on clinkering of	103	Dies, abrasive action of clays on	99	
Portland cement	67	Direction finders, airplane	96	
Brick, certification of	69	Disaccharides, nonreducing, in hydro-		
Bridge construction, welded steel ped-	115	lyzed inulin		
estals for		Dry cells, national standard for		
Broadcast stations, automatic recording		E		
of waves from		Echo signals, radio	30	
Bronzes, bearing, effect of zinc, phos-		Electrically welded steel tubing	24	
phorus, nickel, and antimony on		Electricity, international standard of	115	
Burgess, Waidner —, standard of light		Electrotyping, copper	87	
C		Electrotyping solutions, copper, value	80, 88	
Carbon, determination of, in high-sul-	86	of, addition agents in	34	
phur steels, by direct combustion	92	Enameling purposes, cast iron for	79	
Carbon dioxide, solid, properties of		Enamels, letter-box, accelerated weath-		
		ing of		

	Page	I	Page
Enamels v. enamels and varnish, for automobile license tags.....	33	Ignition shielding, aircraft engine.....	22
Enamels, vitreous, effect of variations in composition on properties of.....	78, 120	Index of refraction v. composition of soda-lime glasses.....	26
Engines, aircraft, ignition shielding for.....	22	Insulating board, fiber, properties of.....	47
F		Insulating materials, effect of density of packing on.....	110
Fabrics, measuring air permeability of.....	119	Insulating materials, heat.....	2
Fans, propeller, two-blade, performance characteristics of.....	60	Insulators, power line, national standard for testing.....	116
Faldspar, standardization of classification of.....	2	Interference measurements in the first spectra of krypton and xenon.....	108
Felts, bituminous saturated, extraction of.....	119	International Advisory Committee on Electricity, report of.....	115
Fiber insulating boards, properties of.....	47	International and mechanical watts, relation between.....	29
Fiber test sheets, preparation of.....	81	International standards of light and electricity.....	115
Filters, Davis-Gibson mean sunlight.....	32	Inulin, hydrolyzed, nonreducing disaccharides in.....	99
Fire clays, mineralogical changes in study of.....	35	Ionometers for X-ray standardization, calibration of.....	13
Fire prevention and protection in Government buildings.....	75	Iridium, pure.....	47
Fire retardant surface treatment for scaffolding.....	4	K	
Fire tests of welded steel floor construction.....	90	Krypton, first spectrum of.....	108
Fires, building, gauging the severity of.....	16	L	
Flax, New Zealand, for making paper.....	88	Labeling plan, indorsement of.....	101
Floor construction, welded steel, fire tests of.....	90	Lathe tools, cemented tungsten-carbide, cuttings tests of.....	72
Fog landing developments.....	10	Leather, deterioration of.....	58
Fog landing system, radio.....	6	heat of combustion of.....	71
Frequency standard, new fundamental.....	43	influence of splitting on the strength of.....	82
Friction and lubrication publications, list of.....	7	sole, rapid tanning process for.....	4
Furnace for fire tests of walls and partitions.....	75	Letter-box enamels, accelerated weathering test of.....	79
G		Light, international standard of.....	115
Gages, American Petroleum Institute, standardization of.....	6	Waidner-Burgess standard of.....	115
Gas stoves, ultra-violet radiation from.....	80	Lime, soundness of.....	109
Gasoline, purchasing, by specification.....	12	Liquids, thickness of surface layer of.....	100
Glass, dimensional changes in, resulting from heating cycles.....	80	Lubrication, friction and, list of publications on.....	7
optical, instruments for measuring refractive index of.....	118	Lumber, certification of.....	101, 113, 122
window, deterioration of, in storage.....	102	Lutecium, spectra of.....	32
solarization and rejuvenation of.....	118	M	
Glasses, soda-lime, index of refraction of.....	26	Magnesium in Portland cement, determination of.....	119
thermal expansion of.....	109	Maizolith.....	3
soda-silica, density v. composition of.....	70	Map, time zone, of the United States.....	92
special window, effect of ultra-violet radiation upon.....	116	Marble, weather action on.....	90
special window, solarization of.....	97	Mechanics' lien act, uniform.....	50
weathering of.....	80	Metallurgical advisory committee, 1930, meetings of.....	62
Glassware, laboratory, interchangeable ground joints for.....	7	Metallurgical materials, importance of particle size in samples of.....	86
Government buildings, fire prevention in.....	75	Minerals, nonmetallic, standards and specifications for.....	112
Greases and oils, consistometer for measuring properties of, at low temperatures.....	59	Mirrors, proposed commercial standard for.....	72
Ground glass joints, interchangeable.....	7	Moisture expansion of white ware.....	91
H		N	
Heat insulating materials.....	2	National Hydraulic Laboratory.....	53
Heat of formation of water.....	118	Newspapers, old, examination of.....	37
Heavy clay investigation.....	15	New Zealand flax, as a paper-making material.....	88
Heavy clays from Ohio.....	46	Nonmetallic minerals and their products, standards and specifications for.....	112
Heavy ware, clays for making.....	102	O	
Helix angles of screw threads, chart for determining.....	36	Ohio clays, heavy, properties of.....	15
Hollow tile and concrete, beams and slabs of.....	56	Ohio, heavy clays from.....	46
Horne, prevention of accidents in the florological Institute, meeting of examining board of.....	49	Ohio shales, separation of colloidal material from.....	57
"Hyb-lum," ultra-violet reflection of.....	118		
Hydraulic Laboratory, National.....	53		
Hydrocarbon, determination of the empirical formula a.....	85

	Page
Oils, greases and, consistometer for measuring the properties of, at low temperatures.....	59
Optical glass, instruments for measuring refractive index of.....	118
Osmium and ruthenium, separation and determination of.....	32
Osmium, determination of.....	45, 79

P

Paint, purchasing, by specification.....	12
Paints, accelerated weathering tests of, outside white, exposure tests of.....	33
Paper bags as shipping containers.....	48
Paper coating materials and adhesives.....	81
Paper, currency, manufacture of, deterioration of.....	110
Paper-folding test, standardization of.....	14
Paper from New Zealand flax.....	88
Paper, highly purified wood fiber, starch sizing in.....	99
Paper-making material, rayon as a.....	25
Paper research committee, meeting of.....	120
Paper, stability of, relation of sizing materials to.....	57
Paper test results, directional designation in reporting.....	100
Papers, printing and writing, performance standards for.....	70
Particle size, importance of, in samples of metallurgical materials.....	86
Pedestals, welded steel, in bridge construction.....	103
Permeability of fabrics to air, measuring.....	119
Philippine window shell, ultra-violet transmission of.....	108
Photographic emulsions, analysis of.....	86
Photographic plates, resolving power and sensitivity of.....	60
Piezo oscillators, accuracy obtainable with.....	9
testing of, for broadcasting stations.....	10
Pipe lines, coatings for, cooperative tests of.....	35
Pipe specimens, examination of.....	36
Platinum plating for repaired weights.....	58
Polishing materials, circular on.....	101
Portland cement, determination of magnesium in.....	119
effect of boric acid on clinkering of.....	46
X-ray study of constitution of.....	90
Power-line insulators, national standard for testing.....	116
Propeller fans, two-blade, performance characteristics of.....	60

R

Radiobeacon, aeronautic, improvements in.....	43
aircraft, visual indicator for.....	23
Radiobeacon systems, directive.....	5
Radio developments, aeronautic.....	117
68, 82, 95, 107, 117	
Radio echo signals.....	30
Radio-frequency standards, accuracy of.....	9
Radio-measurement methods, improvements in.....	24
Radio range, visual, double-modulation type.....	24
Radio-signal transmissions of standard frequency.....	61
Radio subjects, classification of, Dewey decimal system.....	92
Radiometry, ultra-violet, an improved method of.....	97
Rail steel, tensile properties, at elevated temperatures.....	5
Railroad track scale testing, fiscal year 1929.....	14
Rayon as a paper-making material.....	25
Refractive index of optical glass, instruments for measuring.....	118

	Page
Relation between the international and mechanical watts.....	29
Roofing, copper, seams for.....	76
Roofing slate, destructive weathering of, specifications for.....	121
Rubber, crystalline.....	47
Rubber testing, tentative laboratory procedure for.....	85
13	
Rubber vulcanized with trinitrobenzene.....	98
Rugs, nonslip.....	89
Ruthenium and osmium, separation and determination of.....	32

S

Scaffolding, fire-retardant surface treatment for.....	4
Scales, large-capacity, testing equipment for.....	36
railroad-track, testing during fiscal year 1929.....	14
Schopper tester, standardization of.....	14
Screw threads, chart for determining helix angles of.....	36
Sea shells, ultra-violet transmission of.....	108
Seismological Society of America, annual meeting of.....	45
Shales, Ohio, separation of colloidal material from.....	57
Shielding, ignition, for aircraft engines.....	22
Sieves, coarser than No. 200, calibration of.....	6
Sizing materials, relation of, to stability of paper.....	57
Slabs, beams and, of hollow tile and concrete.....	56
Slate, roofing, destructive weathering of, specifications for.....	121
Slipping of rugs, preventing.....	47
Soda-lime glasses, index of refraction of, thermal expansion of.....	25
109	
Soda-silica glasses, density versus composition of.....	70
Solarization and rejuvenation of window glass.....	118
Solarization of special window glasses.....	97
Sole leather, rapid tanning process for.....	4
Solid carbon dioxide, properties of.....	92
Sound absorption coefficients.....	54, 88, 103
Sound absorption, measurement of.....	88
Soundness of lime.....	102
Specification, purchasing gasoline by.....	12
purchasing paint by.....	32
Spectra of lutecium.....	61
Standard frequency, radio signal transmissions of.....	112
Standards and specifications for nonmetallic minerals and their products.....	37
Standards Yearbook, 1930.....	69
State utility commission engineers, 1930 conference of.....	66
Steam, research on the properties of.....	21
Steel, cemented tungsten carbide, for lathe tools.....	72
Steel floor construction, welded, fire tests of.....	90
Steel, rail, tensile properties of, at elevated temperatures.....	5
Steel tubing, electrically welded.....	24
Steels, high sulphur, determination of carbon in.....	86
Stoves, gas, ultra-violet radiation from.....	80
Sunlight, noon, filters for changing to.....	32

T

Tanning process, rapid, for sole leather.....	4
Temperature changes, effect of, on properties of bodies.....	2
Thermal expansions of fused alumina, bauxite, and diaspore.....	55
Thermal expansions of some soda-lime glasses.....	109

	Page		Page
Thickness of surface layer of liquids.....	100	Weather action on marble.....	90
Tile, hollow, and concrete, beams and slabs of.....	56	Weights and measures, twenty-third national conference on.....	44, 65
Time zone map of the United States.....	92	Weights, repaired, platinum plating for.....	58
Trinitrobenzene for vulcanizing rubber.....	98	Welded column bases.....	77
Tubular members, welded, strength of.....	11	Welded joints for aircraft, strength of.....	11
Twenty-third national conference on weights and measures.....	44, 65	Welded steel floor construction, fire test of.....	90
Typewriting standards and dates of typewriting.....	95	Welded steel pedestals in bridge con- struction.....	103
U		Welded steel tubing, electrically.....	24
Ultra-violet radiation from gas stoves.....	80	White paints, exposure tests of.....	33
Ultra-violet radiometry, an improved method of.....	97	White ware, moisture expansion of.....	91
Ultra-violet reflection of "Hyb-lum".....	118	Wind pressure on chimneys.....	77
Ultra-violet transmission of sea shells.....	108	Window glass, deterioration of, in stor- age.....	102
Uniform mechanics' lien act.....	50	Window glasses, solarization and re- juvenation of.....	118
V		special, solarization of.....	97
Varnish on automobile license tags.....	33	special, weathering of.....	80
Visual double-modulation type radio range.....	24	Wires, effect of temperature changes on properties of.....	2
Visual indicator for aircraft radiobea- con.....	23	Wood fiber papers, highly purified, starch sizing in.....	99
Vitreous enamel, effect of variations in composition on properties of.....	78, 120	X	
W		Xenon, first spectrum of.....	108
Waidner-Burgess standard of light.....	115	X-ray standardization, ionometers for, calibration of.....	13
Walls and partitions, furnace for fire tests of.....	75	X-ray study of constitution of Portland cement.....	90
Washing, cleaning, and polishing mate- rials, circular on.....	101	Y	
Water, heat of formation of.....	118	Yearbook, Standards, 1930.....	37
Watts, relation between international and mechanical.....	29	Z	
Waves, automatic recording of, from broadcast stations.....	67	Zoning ordinances.....	49
